

19" ODF UNIT 19" PATCH CORD STORAGE

QUICK AND EASY FIBRE MANAGEMENT

FOR FAST INSTALLATION ON SITE

19" ODF unit

The flexible new 19" ODF unit from Nexans is specially designed for fast fibre installation on site. The ODF has an open design so there's no need to thread cables through holes or screw connections. The panel and splice tray open easily to access the contacts. The unit has a new splice holder making it easy to secure the splice sleeves.

- Supplied ready for installation.
- Can be supplied preterminated.
- Available in four sizes.

See the instruction video
for the 19" ODF unit.

EASIER CABLE MANAGEMENT ON SITE

19" Patch cord storage

The new patch cord storage solution from Nexans is the easy way to manage excess patch cord between the ODF unit and the active equipment in the same frame. Cable entry from the left or right. Rounded hangers reduce the risk of damage and attenuation. The practical locking mechanism makes it easy to expose the patch cords and rearrange them if necessary.

- Capacity 192 patch cords.
- Can be combined and stacked.
- No tools required.

See the instruction video
for the 19" Patch cord
storage.
